Angle Pairs Formed By a Transversal (refer to chart on pg. 147)

Use the given diagram to complete the chart by filling in the code for the classification between a particular angle pair. For example, angles 1 and 9 are vertical angles, so in the box corresponding to row 1 and column 9, fill in a V.

KEY CODES:

V: Vertical Angles

LP: Linear Pair

C: Corresponding Angles

AI: Alternate Interior Angles

AE: Alternate Exterior Angles

SI: Same-Side Interior Angles

SE: Same-Side Exterior Angles **NR**: No Relationship
